This Agreement shall be governed by and construed in accordance with the laws of the People's Republic of China, excluding the United Nations Convention on Contracts for the International Sale of Goods (CISG). The parties hereby expressly waive the application of CISG to this Agreement.

1. Cooperation Scope

This agreement is a product sales and procurement cooperation agreement. Supplier grants Customer the non-exclusive right to sell Supplier's products in the [Spain]. Party B shall not claim any exclusive or exclusive operating rights in any form.

Supplier agrees that Customer may conduct product sales business exclusively through its own proprietary online website within the [Spain]. Customer shall not sell Products through any offline retail channels, third-party e-commerce platforms or marketplaces (including but not limited to Amazon, eBay, Walmart.com), or any other channels unless expressly authorized in writing by Supplier. Any violation of the territorial or channel restrictions set forth herein shall constitute a fundamental breach of this Agreement, entitling Supplier to immediate termination and claim for damages. Customer shall be solely responsible for all legal and regulatory compliance requirements in the United States relating to the importation, labeling, certification (including but not limited to FCC, CPSC, FTC), customs clearance, tax reporting, and post-market surveillance of the Products, and shall bear all associated costs, penalties, and liabilities arising from non-compliance.

2. Price Management

2.1 The recommended retail price (MSRP) for customers selling to the public is \$899 for Basic and \$1,299 for PRO; customer prices must not fall below this MSRP.

2.2 The price of products sold by the Supplier to customers shall be determined according to the price specified in the PI provided by the Supplier.

2.3 During the Black Friday promotion period held on Supplier's official website, Customer may sell the Products with reference to and at the same Black Friday promotion price as published on Supplier's official website.

2.4 Customer's actual sales price shall not be lower than the MSRP agreed in this Agreement (except during the Black Friday promotion period as set forth above).

2.5 Should Customer genuinely need to set the sales price below the aforesaid MSRP for special

reasons , or if any of its offline distributors intends to do so, Customer shall submit a unified written application to Supplier and obtain Supplier's prior written approval. Customer shall strictly comply with the price management requirements notified in writing by Supplier.

2.6 If Customer sells the products at a price lower than Supplier's recommended price, Supplier shall have the right to hold Customer liable for breach of contract, including but not limited to suspending supply, terminating this Agreement, and demanding compensation. Customer shall cooperate by providing relevant documentation for Supplier to verify its promotional activities.

3. Procurement and Payment

3.1 When Customer purchases products, Supplier shall confirm that Customer's procurement requirements (including model and quantity) align with its own production capacity, product supply capability, and production plan, and then formulate and issue a written product sales Order or Proforma Invoice based on these requirements. Customer shall confirm the accuracy of the contract terms within 3 working days upon receipt of such Order or Proforma Invoice; failure to confirm or raise written objection within such period shall be deemed as confirmation. Any confirmation response provided by Customer via email or other verifiable written means shall constitute a binding purchase order and full acceptance of all terms therein, including price, quantity, and delivery terms. Unless otherwise agreed in writing by Supplier, Customer may not unilaterally modify or cancel any confirmed order. Supplier reserves the right to adjust or reject any Order or Proforma Invoice prior to Customer's confirmation due to production schedule, raw material shortage, force majeure, or other objective reasons; even after Customer's confirmation, if material change of circumstances renders performance manifestly unfair, Supplier shall have the right to negotiate amendment or termination of such order without liability.

3.2 Telegraphic Transfer (T/T)

The customer shall pay the total order amount to the supplier's designated account within 7 working days after confirming the order (confirmation shall be deemed effective when Supplier issues Order or PI and Customer fails to raise written objection within 3 working days), and shall provide valid payment proof to Supplier within 24 hours after payment completion. Supplier shall have the right to suspend production or shipment until payment is verified as received. Upon receiving the full payment, the supplier will arrange shipment according to the agreed delivery time and address provided by the customer. Customer shall inspect the goods within 3 days upon receipt. Failure to raise any written objection regarding quantity or quality discrepancies within such period shall be deemed as acceptance of the goods as conforming to the contract.

3.3 If Customer fails to make payment as agreed (e.g., delayed wire transfer or payment not credited to Supplier's designated account), Supplier shall have the right to revoke the discounts granted to Customer and suspend shipments. If Customer fails to complete payment within 7 working days after order confirmation, Customer shall pay liquidated damages to Supplier at the rate of 0.06% of the overdue amount per day starting from the 8th working day. If Customer still fails to pay the full amount within 15 days after the due date, it shall constitute a material breach, entitling Supplier to unilaterally cancel the order and/or terminate this Agreement without liability, and deduct liquidated damages equal to 30% of the total order value from the received payments; any remaining balance (if applicable) shall be refunded to Customer. Such deduction shall not affect Supplier's right to claim additional losses exceeding the liquidated damages.

4. After-sales Term

The quality standard of the Products shall be solely determined by Supplier's factory release specifications. Any return, customer complaint, product recall, or related cost arising from causes other than Supplier's inherent manufacturing defects—including but not limited to improper handling, storage, marketing, or compliance failure by Customer—shall be fully borne by Customer.

Suppliers provide a one-year warranty period starting from the date of shipment as evidenced by the bill of lading or carrier's receipt issued at the port of Shenzhen. This warranty applies solely to Products used normally by end consumers in accordance with the Product Manual. If quality issues arise during this period under such normal use, customers may request a replacement or repair.

After-sales Service Liability Limitations: Party A shall only bear the costs for returns, replacements, repairs, and related logistics expenses when the product malfunction is attributable to inherent quality defects of the product itself, and not due to improper use by Party B or end customers, unauthorized disassembly, modification, accidental impact, or force majeure. Customer must submit any claim for replacement or repair due to alleged quality defects within 30 days from the date of receipt of the Products; claims submitted thereafter shall be deemed waived unless Supplier agrees otherwise in writing. When applying for returns, replacements, or repairs, Party B must provide sufficient evidence proving that the fault stems from inherent product quality issues; Party A reserves the right to request Party B's cooperation in conducting an investigation and providing relevant supporting documents. If Party B fails to provide the defective product and required documentation as requested, Party A may refuse after-sales service. Party B shall complete a preliminary assessment of the fault within 5 working days upon receiving a repair request from an end customer; failure to address the issue within this period shall be deemed acceptance of a non-quality-related defect. In no event shall Supplier's total liability for after-sales service (including returns, replacements, repairs, and logistics) exceed 20% of the purchase amount of the affected batch of Products.

Non-quality-related damage: For product damages caused by improper use by Party B or end customers (e.g., exceeding the product's load capacity, failure to follow the Product Manual, unauthorized disassembly or modification, accidental impact, or force majeure), Party A shall provide repair services; all associated repair costs, component expenses, and logistics fees shall be borne by Party B.

5. Intellectual Property and Agreement on Use of Product Certifications

Customer shall strictly comply with the following intellectual property obligations: a. No trademark identical to or similar to Supplier's trademark may be applied for registration in any geographical jurisdiction under its own name; b. Supplier's trademark shall not be combined with other identifiers, text, or graphics; c. No authorization or license shall be granted to any third party to use the aforementioned content, nor shall any third party be assisted in utilizing such content in any manner; d. The identifiability of Supplier's trademark shall not be diminished or blurred in any manner; e. Customer shall not alter, remove, or cover any original packaging, labeling, serial numbers, or authenticity marks affixed by Supplier, nor shall it affix any third-party branding, logos, or promotional materials to the Products or their packaging without Supplier's prior written consent. All Products

must be presented to end consumers in their original form as delivered by Supplier. In addition to the above provisions, Customer shall strictly comply with all other intellectual property protection requirements imposed by Supplier regarding the products and related materials (including but not limited to patents, trademarks, and copyrights). If Customer breaches any obligation stipulated herein, it shall pay Supplier a penalty of no less than [1] million US dollars, and Supplier shall have the right to unilaterally terminate this Agreement and claim compensation for all resulting losses. Customer shall also bear all expenses incurred by Supplier in restoring the brand image and safeguarding its rights and interests (including attorney fees and litigation costs).

The Supplier hereby grants the Customer permission to use promotional images and videos published on the Official Website for product promotion purposes solely when marketing products specified in this Agreement. Such materials may not be used for other purposes or modified without authorization, and such permission shall be limited to the term of this Agreement and shall automatically terminate upon expiration or earlier termination of this Agreement.

6. Term of Agreement

This Agreement shall have a term of two years, commencing on July 1, 2026 and expiring on July 2, 2028. The term shall be calculated from the date both parties affix their official seals or contract-specific seals. This Agreement shall automatically terminate upon expiration. Should either party wish to continue cooperation, it shall engage in discussions regarding renewal within 30 days prior to the Agreement's expiration and execute a separate written agreement. Notwithstanding the foregoing, if Customer commits any material breach (including but not limited to overdue payment exceeding 15 days, violation of pricing policies, infringement of intellectual property rights, or unauthorized resale), Supplier shall have the right to terminate this Agreement immediately upon written notice to Customer without any liability.

7. Dispute Resolution

Any dispute arising from or in connection with this Agreement shall first be resolved through friendly negotiation between the two parties. If no agreement is reached through negotiation, either party may submit the dispute to the Shenzhen International Arbitration Institute (SCIA) for arbitration in accordance with the current effective arbitration rules of the institution. The arbitration shall be conducted in China, Shenzhen, and conducted in Chinese. The arbitral award is final and binding on both parties.

8. Effectiveness of the Agreement

This Agreement shall come into force upon being affixed with the official seals (or contract-specific seals) by both Supplier and Customer. The Agreement is executed in duplicate, with each party retaining one copy. All appendices, supplementary agreements, and notification methods hereto shall have equal legal effect as this Agreement. The scanned copies of this Agreement shall possess the same legal validity as the originals.
